MATRIXCARE TF
THE TOP-CLASS HOTEL HAIRDRYER

MATRIXCARE TF

PROFESSIONAL EXPERIENCE, HAPPY GUESTS

For hoteliers dedicated to providing their guests with the finest experience, Valera introduces a hotel version of its professional high-speed hairdryer.

Equipped with a digital motor, it blow-dries and styles hair faster and quieter than conventional devices while being wonderfully lightweight.

Pure comfort and super-professional results for guests, ensuring their stay remains a beautiful memory.

Double Security

To meet the special safety requirements in hotel operations, the hairdryer is equipped with both a thermal switch with automatic reset and a thermal cutoff, providing additional protection in case of accidental overheating.

SUSTAINABLE QUALITY FOR ULTIMATE COMFORT

67 dB(A)
Ultra-quiet

Quietness

A quiet hairdryer enhances a delightful hotel stay. Matrixcare TF pampers relaxation-seeking guests with low decibels and a pleasant sound.

Harmony

Matrixcare TF seamlessly blends into any sophisticated environment. Its unique, elegant shape and noble surface texture – silver chrome or high-gloss black – make the hairdryer a design object in luxury hotels.

TRENDSETTING EFFICIENCY

Valera's premium hairdryer scores high in sustainability. Thanks to its fast and powerful airflow, it ensures short drying times, saving guests time and hotels on electricity costs. Guests, hotel operators, and the environment all benefit equally from a high quality and durable, eco-friendly hairdryer with low energy consumption.

COMPLETE SET, FULL COMFORT

The Deluxe version of Matrixcare TF comes with a premium beauty case for neat, convenient and safe storage. In addition to the Valera exclusive cool concentrator nozzle, the set includes a professional curling diffuser to meet various styling needs.

Safe styling

- Guests will appreciate the precision of the professional hairdryer nozzle and enjoy its comfort. Valera's patented Touch Me nozzle doesn't overheat during drying; it can be touched and rotated without any discomfort. For absolute safety in use.

Defining curls in style

- A curl diffuser is the ideal hairdryer attachment for drying naturally curly or permed hair. In the deep bowl shape, curls are captured and remain in shape without being blown around. The result: shiny, perfectly defined curls without frizz.

The Set contains:

- Hairdryer in Black/Chrome
- Cool styling nozzle TOUCH ME
- Professional curl diffuser
- Case in elegant black soft-touch imitation leather look

SALON-QUALITY STYLING

More than a design object and more than guests expect: Valera's high-speed hairdryer offers top technical performance for salon-quality drying and styling, while being lightweight and compact.

The compact yet powerful professional hairdryer delivers maximum power thanks to additional air inlets above the handle. With two individual settings, MAX and CARE, and a total of 18 combinations of temperature and airflow, it allows an efficient and gentle treatment for every hair type. The consistent temperature at the air outlet safeguards the hair from heat damage. Millions of negative ions, emitted into the air stream by an integrated ion generator, complete the total care package for shiny, gorgeous, frizz-free hair.

80 m³/h
Ultra-strong air flow thanks to multiplier effect

ABT - Air Boost Technology

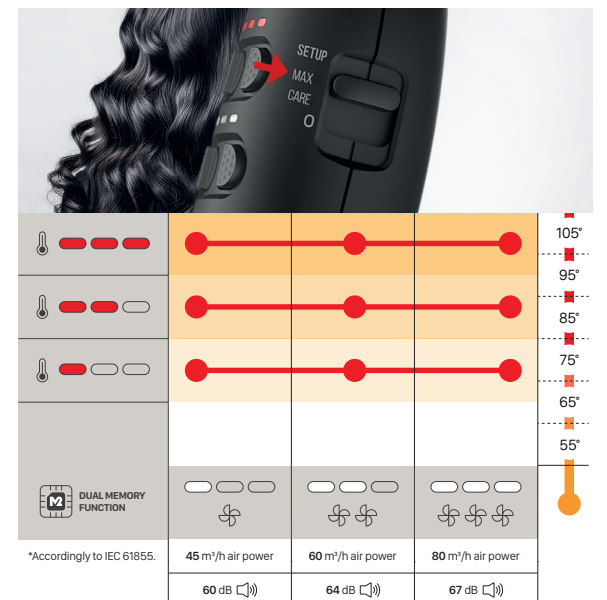

Care Setting

The CARE setting is particularly recommended for fine, delicate or coloured hair thanks to a variety of 9 balanced combinations of temperature and airflow, increasing in gradual progression.

Max Setting

The MAX setting is suitable for strong, thick hair. The 3 temperature positions are set at a higher level. Temperature and airflow are independently adjustable: changing one does not change the other. 9 combinations are possible.

WELLNESS FACTOR

Valera's premium hairdryer also excels in spas and wellness centers. It meets the highest standards of hygiene and comfort.

Easy cleaning

- For the cleaning of the air intake grid a convenient cleaning brush is included in the delivery. The easily removable filter allows a simple rinse under water for thorough hygiene.

Well-being guaranteed

- Valera's SANIFY System, the ideal combination of airflow, temperature, and ion flow, provides an antibacterial, air-improving effect for a healthier environment.
